SUMMARY

Master's graduate in Computer Science specializing in Machine Learning and Generative AI, currently serving as an IT Systems Analyst and Technical Lead. Experienced in translating business requirements into technical solutions, leading enterprise super-app development, and maintaining data integrity through systematic validation and reconciliation. Strong expertise in system analysis, software architecture, and codebase troubleshooting, complemented by a solid research background and a track record of scientific publications. Combines technical proficiency, analytical problem-solving, and cross-functional leadership to improve enterprise operations and deliver impactful technology solutions.

EDUCATIONS

Maranatha Christian University

Magister of Computer: Computer Science 2025 - 2026
Distinction: Best Graduate, Faculty of Smart Technology & Engineering GPA : 4.00/4.00
Area of Focus: Machine Learning, Generative AI, Sustainable AI Systems

Bachelor of Computer: Informatics Engineering 2021 - 2025
Area of Focus: Backend Development & Prompt Engineering GPA : 3.96/4.00

WORK EXPERIENCE

Royal Medicalink Pharmalab

Jakarta, Indonesia

IT System Analyst (Technical Owner)

- Led the technical ownership of the company's enterprise super app, translating business requirements into technical specifications and coordinating implementation with the external development vendor, WIT.id.
- Oversaw monthly sales data validation, cleansing, and reconciliation to maintain reliable business intelligence reporting and provide accurate management insights.
- Strengthened operational transparency through systematic reconciliation of system records against actual business transactions, identifying discrepancies and supporting data consistency.
- Led internal technical troubleshooting and root cause analysis across React and Laravel codebases, resolving system issues and reducing dependency on external vendor escalation.
- Served as the primary internal technical liaison, aligning business stakeholders and external developers to ensure technical solutions addressed operational requirements.
- Oversaw office IT infrastructure, including network and hardware systems, to support reliable day-to-day business operations.

ORGANIZATION EXPERIENCES

Maranatha Christian University
Bandung, Indonesia

FACULTY STUDENT SENATE

President 02/23 – 01/24

- Manage 16 programs of student activities in the Faculty
- Lead, coordinate and control the implementation of policies and programs.
- Representing SEMAFIT in external relations or with other parties. Collaborating with Google Developer Group, IBM, Red Hat, Amazon Web Services, WIT.ID, IT BCA, CTI.

Academic Coordinator 02/22 – 01/23

- Manage 4 programs of student academic activities in the Faculty
- Lead, coordinate, control and monitor the implementation of student academic activities.

Google Developer Group
Bandung, Indonesia

GOOGLE DEVFEST 12/23

Person in Charge of the University

ACHIEVEMENT

Artificial Intelligence Competition

S-SPARC (Sustainable-Smart Personal Assistant for Responsible Consumption) 2026

AI tutoring assistant that makes students think through structured, gradually-unlocked hints before revealing full answers, while instantly reusing verified answers for repeated questions to cut computational cost without sacrificing learning.

Merit Awards — Education University of Hongkong

Most Favorite Poster — Telkom University Indonesia

github/s-sparc

Fullstack Web Competition

Green Mobility Hub 08/24

Web Development & Natural Language Processing — Satya Wacana Christian University

1st Place

Whatsapp chatbot application that offers comprehensive solutions to enhance energy efficiency and urban planning.

github/GreenMobilityHub (Backend) and github/GreenMobilityHub-Admin (Frontend)

Business Plan Competition

AgriSense 06/24

Business Plan — Tarumanagara University

3th Place

An innovative platform for agricultural monitoring based on AIOT (Artificial Intelligence of Things). Platform to improve sustainable agricultural practices in Indonesia.
