SUMMARY

Master's graduate in Computer Science, specializing in Machine Learning and Generative Artificial Intelligence, currently serving as an IT Systems Analyst and Technical Lead. Skilled at bridging the gap between business needs and technical implementation by overseeing enterprise super-app development, while ensuring data integrity through rigorous validation and reconciliation. Professional expertise in system problem-solving and codebase maintenance is reinforced by a solid academic foundation in AI research and a proven track record of scientific publications. Adept at combining technical proficiency with strategic leadership to drive innovation and operational excellence within complex business systems.
